CHICKEN HATCHINGS AND POULTRY SLAUGHTERINGS

SOUTH AUSTRALIA

AUGUST 1967

Details of chicken hatchings and poultry slaughterings in South Australia from 1965-66 to August 1967 have been compiled from returns submitted by all known commercial hatchers and slaughterers. Although the figures may not cover some very small producers, it is considered that the statistics give a high level of coverage of hatchings and slaughterings of meat strain chickens and of hatchings of egg strain chicks in commercial hatcheries which sell day-old chicks. Any discrepancies between totals and sums of components are due to rounding.
